

Valuable Tree Planting Work Is Having the Effect Of Changing the Prairie Landscape

A gradual change in the general prairie landscape is taking place here as a result of the tree-planting cooperative tree-planting work being carried on by the forestry branch of the Canadian Forestry Service. This change is particularly apparent in the area around the city of Regina where the trees are planted in the ditches as they are established in Manitoba, Saskatchewan and Alberta since 1913.

Thousands of cherry bushes have been established in the ditches of the established grain sections, cuttings and transplants of deciduous trees are being planted in the ditches of the established grain sections, and the work has grown to such proportions that during the spring of 1935 over 2,500,000 seedlings and cuttings of aspen, poplar, birch, cottonwood, ash and willow were sent out. In addition to these broad-leaved varieties over 50,000 evergreen spruce and pine seedlings were distributed. The trees are planted in the ditches for general farm planting and about 100,000 for planting on forest reserves in Manitoba and Saskatchewan. The progress of this important work has been realized by the government of the results obtained which was inaugurated in 1913. The first year the forestry branch of the Service supplied to its farmers in Manitoba and Saskatchewan 1,000,000 seedlings. In 1935 this was increased to 460,000 seedlings. The demand for seedlings has increased steadily in 1934 the number sent out had reached 1,000,000. The forestry branch distribution has continued between 1913 and 1934 the number sent out had reached 1,000,000. The forestry branch distribution has continued between 1913 and 1934 the number sent out had reached 1,000,000.

During recent years the distribution has been carried on from two stations, Regina and Saskatoon. In the Southern Manitoba, Saskatchewan and Alberta sections, the trees are planted in the ditches of the established grain sections. Careful choice is made of all material used on all the trees to be planted. The trees are well established and no trees are sent out which are not well established and no trees are sent out which are not well established.

The forestry branch of the Service has been recently authorized to provide to its farmers in Manitoba and Saskatchewan 1,000,000 seedlings. The demand for seedlings has increased steadily in 1934 the number sent out had reached 1,000,000. The forestry branch distribution has continued between 1913 and 1934 the number sent out had reached 1,000,000.

WHAT KIND OF BAIT ARE

YOU USING?

But business men—not in Delia alone, but all over the west—are complaining of business stagnation in their particular lines. And many are evidently content to await with what patience they may, a revival in trade conditions. This could very well coincide with certain individual viewpoints, but is most assuredly not the method followed by the men who have climbed high up the ladder of success. They didn't wait for customers to call, they fished for them.

All men—merchants and shopkeepers, especially—are failures, failing for customers to whom to dispose of their wares. The convention arises, are they using the right kind of bait?

The Business Firm like the T. Eaton Co. use advertising for bait and that they have successfully solved the problem is attested by the huge number they spend yearly in newspaper and catalogue advertising. The big influential catalogue which is sold at every corner in the west, with here and there an exception, is not mailed through philanthropic motives nor a picture book for children. It is the only physical triumph of a modern advertiser, and when you look the bailey thing across the room and a slipper don't catch the eye, you find a tired foot need slippers. Good advertising and tempting bait.

There is one other of advertising open to the merchants of Delia, and tightly closed by big outside interests—and that is the Delia. Why not bait your hook, Mr. Business Man, with advertising—systematic, not sporadic—in the Times? You can't catch the eye, you can't catch the eye, you can't catch the eye.

Local and District

H. R. Wilson and C. Steele, of Oyen, were in town Saturday.

John Bradford shipped two carloads of cattle to Calgary this week.

R. A. McPherson left Monday morning's train on a business trip to Calgary.

Mr. G. H. Hewson, of Stettin Hill, was sleeping in town Monday afternoon.

The Farmers' Store will have a great deal of fruit in stock. It is expected on Thursday.

Miss Johnson, Miss Beatrice and Master Roy Anderson spent a portion of the week in Calgary.

Miss Gordon Phillips, of Blairmore, arrived here Friday to join the staff of the Queen's hotel.

Robert Richardson has returned from a motor trip to Portland, Ore. While in the Rose city he was the guest of his uncle, Dr. T. L. Leves.

Owing mainly to the efforts of "Shorty" MacPherson, some twenty-five harvest hands have been placed in the district so far this week.

Your attention is directed to the auction sale at Munson, next Saturday, the 21st inst., of a blacksmith shop complete with all tools, etc.

W. L. King, stonemason, is putting together metal desks I sent them very, very much interested with the prospect of a big order.

A knowledge of the habits of the insects which are the cause of the pest, is the key to the solution of the problem. The insects which are the cause of the pest, are the key to the solution of the problem.

A steady downpour of rain Saturday prevented many farmers from plowing the land, consequently the Saturday night compilation appears.

A traveling man, after his car had been damaged by the very late Christmas dips and drove Saturday night, coaxed the machine into a hotel garage and went on to Munson by train.

The majority of the farmers who came to town on business and plowed last Saturday left their motor cars at home, on account of the muddy roads, and used the reliable old and speedy—old Delia for the trip.

Dr. Jamieson, Chiropractor, of Hanna, will make regular visits to Delia on Monday and Friday of each week, commencing 30th. Of course the dentist's office in the G. W. P. club, hours from 2 until 8 o'clock—Ad'l.

The "White" restaurant is growing in popularity with the local business men who have no wife to cater to the needs of the stomach and whims of appetite, must be content to eat at the "White". Of the opinion of the majority, they are not missing as much at that.

Ar. Lewis returned home Saturday morning from a six weeks' vacation, spent among the scenes and memories of boyhood days at Muskoka Island. He visited and received a lot of old friends, looked at the old swimmer's hole, and heartily enjoyed the old mill and the old farm which he had prepared in his honor.

As is evidenced by his appearance of perfect physical well being.

Dr. Crawford, of Craigmyle, was in town yesterday.

Mr. and Mrs. J. Kober and Mr. and Mrs. F. Vela left for their home in Chicago, Ill., last week after a most enjoyable month's vacation in the Delia district, guests of Mr. and Mrs. Stanley Hays, sister of Mrs. Kober. The party motored from the windy city and are returning home via Winnipeg.

E. L. Long has been awarded the contract for grading approximately five miles on the main highway north of Delia. Seven new culverts have already been completed on this road and the plans for the building of five additional culverts. Up on completion this will be one of the finest stretches of roadway in the Delia district.

W. N. Graham, of Delia, and C. M. Macleod, of Hanna, have formed a partnership and will, after the 1st of September, carry on the mercantile business at Hanna, under the name of Macleod & Graham, with offices at Delia and Hanna. There will be no change in the office except the change of name. Mr. Walker will run the Delia office as heretofore while Mr. Macleod will reside in Hanna.

Stuart Walker, proprietor of the Queen's hotel, met down a party of Sunday morning to meet, his wife, who has been visiting friends and relatives at Brockville, Ont., for the past few weeks. Mr. Walker purchased a new Oldsmobile car while in Calgary and drove home Tuesday morning, accompanied by Mrs. Walker and their daughter, Dorothy and Evelyn—the latter having been with his mother in the east.

His father and extremely heavy stretches of road were encountered in the run up from the foothills city.

CRAIGMYLE NEWS.

Mr. and Mrs. Alfred Farnon and Miss Joyce Farnon returned home Monday evening from a six weeks' motor trip, spent principally at the Columbia and Washington points. They report a most enjoyable outing.

Mr. Hugh McKee accompanied by her guest Miss Brown, who is on a visit from Belfast, Ireland, spent the weekend in Calgary, returning home Monday morning.

Mr. and Mrs. B. O'Connell returned to their residence in G. Southwell's house on 1st avenue east, where the new grain buyer has been conducting the market and checking any advances by throwing in the staff in the house.

Earl C. Ward, who has held the position of assistant station agent here for the past few years, has returned to his home in the city on account of ill-health.

Mr. P. H. Gagner, accompanied by her sister, Miss Marian Clarke, of Urmston, arrived home on Monday evening.

Mr. Ivan Cook and daughter Beverly, of Oyen, have been visiting here during the past week guests of Mr. Cook's parents, Mr. and Mrs. J. A. Coulson, and Mr. and Mrs. E. W. Reynolds.

Mr. J. J. McDonald and two daughters, Margaret and Evelyn, accompanied by her mother, Mrs. Brail of Edmonton, returned home last Wednesday from a month's visit in the capital city.

Mr. and Mrs. Clyde Moore and daughter Margaret returned home last of last week from their auto trip to Los Angeles and other points in southern California. They report having enjoyed an ideal outing.

Hand Hills Echoes

The barn dance held at Jack Bell's August 11th, was well attended and a most enjoyable evening spent.

Mr. O. B. Richardson with his son Kenneth and little daughter, Marie, returned home last night, after a most enjoyable trip to the west.

We are sorry to report that Mr. B. Peet, who has been ill for some time, is not making as rapid a recovery as anticipated, and is returning from the hospital.

Miss M. E. McFadden left August 11th for a short visit with friends in Toronto.

Mr. Peterson, son of Mr. and Mrs. S. Peterson, has returned home after an absence of several years.

Miss A. Bell is spending a holiday with her father, R. Bell.

Make Rapid Recovery

The success of the Department of the Interior in the effects of the Canadian government to save the Indians from extinction is shown in the fact that the great park at Watkins, Alta., approximately 100,000 150,000 acres and 13,000, which was bought for a few years ago, was sold for a further increase in the land and government to save the Indians from extinction.

The road to progress is broad but the road to cure is narrow and dangerous crosses.

As it is \$1.40 a bushel looks much better than \$1.25 a bushel. The price paid by the trade. It would be a good idea to hold the average price by the end of the crop year be \$1.40 or over.

The general conclusion is that the Canadian government is not keeping prices down in any other crop for the present.

The road to progress is broad but the road to cure is narrow and dangerous crosses.

The road to progress is broad but the road to cure is narrow and dangerous crosses.
